furnishing excellence™

With Tiles™, Friant offers a frame and tile system with enhanced structural integrity, ease of installation, and unlimited design possibilities.

We've upgraded this solid steel frame and tile system for enhanced durability, longevity and easy reconfiguration. Tiles™ offers a superior sound experience with full accoustical tiles that are also tackable. Power and data are available at beltline or baseline, with a large cable lay-in capability.

Available in a variety of sizes and materials to allow for creative freedom in designing all your workspaces.
